Subject: 15-Day Notification, Proposed Deletion of Waste From The Los Alamos National Laboratory Site Treatment Plan, Federal Facility Compliance Order (FFCO)

Dear Ms. Briley:

The purpose of this letter is to provide the referenced 15-day notification, described below, before commencement of the Site Treatment Plan (STP) deletion activity. In its letter dated December 4, 2009, the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB) approved the proposal submitted by Los Alamos National Security, LLC, and the National Nuclear Security Administration (LANS/NNSA, collectively the "Respondents") for the removal of 10 experimental test vessels of mixed transuranic waste (MTRU) inventory from the STP in accordance with Section IX of the Federal Facility Compliance Order (FFCO). The Respondents' approach was presented in the document entitled "*Execution of the Bolas Grande Project at Los Alamos National Laboratory.*"

NMED's concurrence was predicated upon receiving written notification from the Respondents at least 45 calendar days before the start of recovery operations and subsequently receiving written notification that a vessel is to be removed from the STP at least 15 calendar days before the vessel is transferred to the recovery facility at the Chemistry and Metallurgy Research (CMR) building for processing. As required per NMED-HWB's December 4, 2009, letter, the Respondents will provide NMED-HWB written notification at least 15 calendar days before each vessel is transferred to the CMR for processing. In accordance with that notification requirement, this letter informs NMED-HWB that the Respondents expect to ship the seventh vessel to the CMR no sooner than September 25, 2017.

In accordance with the requirements of Section XX, "*Documents, Information, and Reporting Requirements*," of the FFCO, we certify, as the project managers responsible for overseeing the implementation of the STP for LANS and for Los Alamos Field Office/NNSA, that, to the best of our knowledge and belief, the information in this document is true, accurate, and complete

If you have any questions, please contact Ellen Gammon at 505-665-5587 (eboyea@lanl.gov) or Adrienne Nash at 505-665-5026 (adrienne.nash@nnsa.doe.gov).

Sincerely,

Ellen Gammon, STP Project Manager
Waste Management Program
Los Alamos National Security, LLC

Sincerely,

Adrienne Nash, STP Project Manager
